

ENERGY GUARD®

Retrofit Kits

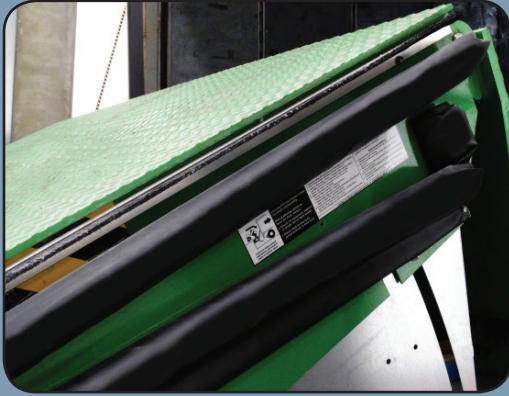

Figure 1: Energy Guard finished installation

The ENERGY GUARD Retrofit Kit offers top of the line perimeter seal that covers the sides and rear of your dock leveler. The energy saving solution blocks invasive vermin and insects as well as debris. It can also be used as an extra security measure.

Figure 2: Energy Guard installation process

Design Highlights

- Compatible with Kelley, Serco and other competitive dock levelers
- Allows unrestricted access to pit for cleaning and inspection
- For narrow pit gaps a “low-profile” option is available
- Design deters risk of material being torn or damaged by trailers or debris
- Fabric is rated to 30 degrees below zero (-30 F)
- UV inhibitors, anti-mildew formulation and matte finish
- This product carries a (1) year limited warranty with APS Resource

Technical Specifications

Operation	Seals off gaps by forming a compression seal around sides and rear of dock leveler
