

IMPACT-A-TRACK™

LED With Controller

Figure 1: Impact-A-Track LED full installation

The Impact-A-Track LED is designed to protect door tracks in high traffic areas of warehouse against forklifts, pallet jacks and other equipment. It can be relied on to communicate restraint status and deflect impacts while utilizing only a small footprint of your active work area. This product comes packaged in a set of two.

Design Highlights

- LEDs are protected from damage keeping your restraint status visible
- Wrap-around design allows for easy door operation
- Anchors to wall to avoid drilling into floor
- Compatible with photo eyes
- Impact, rust and moisture resistant
- 120V incoming power
- Easy wire connections
- Three phase communication with vehicle restraint
 - Red LED: restraint not engaged
 - Green LED: restraint engaged
 - Amber LED: override
- This product carries a one (1) year limited warranty with APS Resource

Technical Specifications

Available Sizes	36" length
	24 lbs
	Kits available for 2" & 3" track sizes
Construction Material	Ultra High Molecular Weight Polyethylene (UHMWPE)
